

## *Transcription of Herbrand Sackville's Service Record – Sheet 1*

The Service Record is difficult to read due to the quality of the original, the faintness of certain words after so many years, and the poor hand-writing. In order to give, as clear as possible, a transcription of the details on the original, oversize document, it has been necessary to divide the sheet up into separate, tabulated areas.

There is a small area of this sheet of the Service Record headed “**Particulars of Biennial Training Undergone**” and under that heading appears the following where the only information that is useful is:-

“**Training undergone in Scheduled years of Service, viz 1-3-5**”, followed by “Deck Hand, 20<sup>th</sup> June 18, AWO 4366, 24-8-18”
